PROMOTIONAL MERCHANDISERS

vik-hitline.com

WE ARE DEVELOPING 1997

*You can select equipment for any type of product.
The company offers more than 3000 pieces of refrigeration
designers for stores of any format.*

*The experience of technical specialists and the inspiration of
industrial designers give the possibility to create innovative solutions
and energy-efficient equipment in compliance with your individual
requirements to the design, construction and cooling system.*

Successfully operating
on the market for over
25 years

Export to 45
countries

More than 500
employees in Ukraine
and 100 employees in
Poland

24000 m²
sq. m of the working
area in Ukraine and
7000 m² in Poland

More than 50000
projects equipped
with our products

SOFE-GROUP POLAND Sp. Z O.O. was founded in June, 2016 as the official representative of Hitline brand in Poland and countries of the European Union.

HITLINE IN THE WORLD

HITLINE at the largest exhibition for retail **EuroShop 2020**

Hitline presented 40 models of showcases appropriate to the current trends of the world-wide retail with environmentally friendly and energy-saving technologies at world exhibition this year.

Company demonstrated new developments and ideas, as well as the goal to produce more environmentally friendly equipment, using R290 refrigerant in the presented cabinets.

One of the vivid examples is the Meat Zone butcher shop built at the booth with R290 refrigerant equipment and Water Loop system.

HITLINE at the largest exhibition for retail **EuroShop 2023**

Partner Companies Hitline and Sofe –Group Poland represented their exposition at the world wide leading retail exhibition – Euroshop 2023.

All concepts presented by the company this year were based on the most important issues for retail – the maximum attention on the product and energy efficiency. At the stand we demonstrated products with a class of energy efficiency C and B, as well as A.

The equipment presented was a completely new level of exposure of products with transparent elements in the design of the glass, where all supporting details were hidden for maximum visibility of the goods.

HITLINE IN ITALY: HOST MILANO 2021 exhibition

Hitline presented environmentally friendly solutions in the field of commercial refrigeration equipment designed for small format stores to the European market.

23 novelties of specialized refrigeration equipment, as well as counters for promotional and impulse sales, taking into account the specifics of European countries, always famous for their grocery boutiques, meat and fish shops, small family stores.

All refrigeration equipment is developed according to the latest trends in global retail: ergonomics, customization, environmental friendliness and energy efficiency.

TECHNICAL SPECIFICATION

EUROPEAN UNION ENERGY LABEL

✱ The data presented in this edition are not a commercial proposal.

✱ Check with our specialists the class of energy efficiency of the protection of the configuration you have chosen.

The designation of the energy efficiency class is assigned to a specific product version. The calculation of the energy efficiency class depends on the functions, configuration, options for opening the glasses and the type of coolant. Each of the numerous parameters affects the energy efficiency classes.

*We produce a full range of retail equipment,
for stores from minimarkets to hypermarkets.*

*A complete list of our products is presented
on our <https://vik-hitline.com/> website, and our
specialists will make your choice optimal.*
